

Why RECYCLE used motor oil?

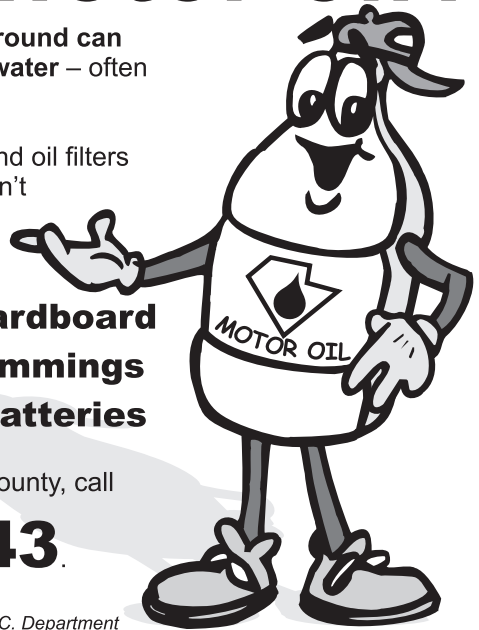

One gallon of used motor oil poured on the ground can contaminate as much as 1 million gallons of water – often the same water we drink.

You can recycle your used motor oil, oil bottles and oil filters at any Georgetown County Recycling Center. Don't forget that the following items also are collected at these sites:

**aluminum ● scrap metal ● cardboard
tires ● newspaper ● yard trimmings
plastic ● glass ● lead-acid batteries**

For more about recycling in Georgetown County, call

(843) 545-3443.
